EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

At the beginning of the claims, change "What Is Claim d:" to --What Is Claimed:--.

2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims is the inclusion of the limitations directed to the beam portion, spaced strap portions, and vertical strut portions all being unitarily cast together from Al-Mg alloy. The prior art of record does not disclose or suggest such limitations in combination with the rest of the limitations of the claim. The prior art of record does teach the use of Al-Mg alloy, straps, and strut portions, but does not disclose them being unitarily cast. This process limitation is given patentable weight in the claim because it results in a structural difference between the prior art of record and applicant's invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
